

Jeevan Pramaan Project

Project Status: **On-going**

Jeevan Pramaan is a biometric enabled digital service for pensioners. Pensioners of Central Government, State Government or any other Government organization can take benefit of this facility.

One of the major requisite for the pensioners post retirement is to provide life certificates to the authorized pension disbursing agencies in the month of November, every year.

In order to get this life certificates the individual drawing the pension is required to either personally present himself / herself before the Pension Disbursing Agency or have the Life Certificate issued by authority where they have served earlier and have it delivered to the disbursing agency.

This very requirement of personally being present in front of disbursing agency or getting a life certificate often becomes a major hurdle in the process of seamless transfer of pension amount to the pensioner. It has been noted that it causes a lot of hardship and unnecessary inconvenience particularly for the aged and infirm pensioners who cannot always be in a position to present them in front of the particular authority to secure their life certificate. In addition to this a lot of government employees post their retirement choose to move to different location either to be with their family or other reasons, hence causing a huge logistical issue when it comes to accessing their rightful pension amount.

Digital life Certificate for Pensioners scheme of the Government of India known as **Jeevan Pramaan** seeks to address this very problem by digitizing the whole process of securing the life certificate. It aims to streamline the process of getting this certificate and making it hassle free and much easier for the pensioners. With this initiative the pensioners requirement to physically present him or her in front of disbursing agency or the certification authority will become a thing of the past benefiting the pensioners in a huge way and cutting down on unnecessary logistical hurdles.

Digital life Certificate can now be generated by a pensioner by having minimum hardware and the application software installed in PC or mobile. The pensioner could either visit the PDA or Service Centre to get the same done. Aadhaar No. is a mandatory requirement for pensioner to take advantage of the application.

In Arunachal Pradesh, the project has been successfully tested on pilot basis at Itanagar Treasury on 27-Nov-2015.
