

e-Hospital Project: (<http://ehospital.gov.in>)

e-Hospital@NIC is a workflow based ICT Solution for Medical College & Hospital. It is a generic application, which addresses all the major functional areas of a hospital and deals with complete treatment cycle of OPD/IPD patients and integrates various functions covering the area of clinic, administrative, and finance.

It is a patient-centric system rather than a series of add-ons to a financial system. This solution helps small to large size hospitals to streamline patient care, hospital administration, ancillary services and clinical support activities.

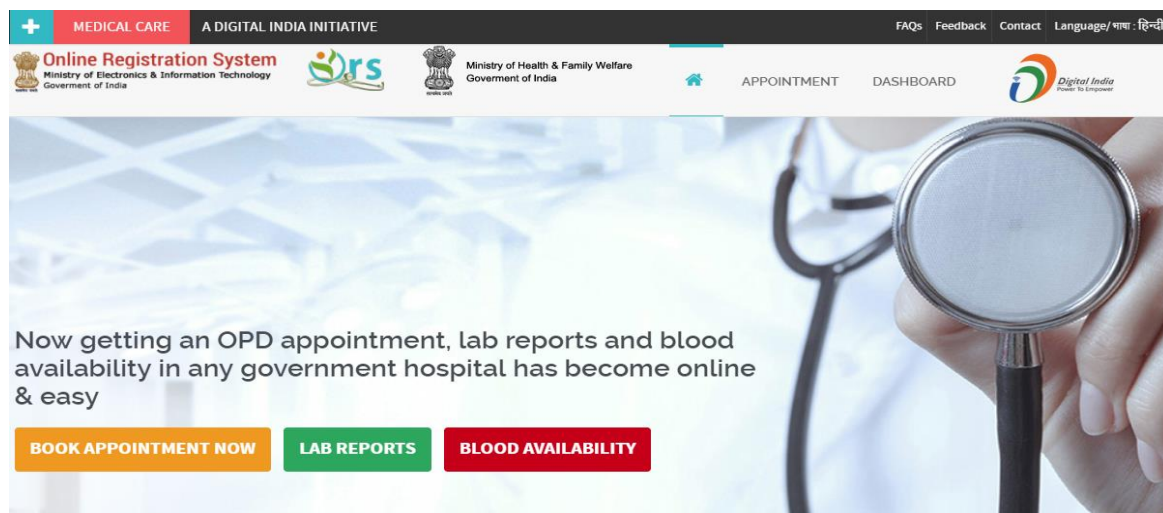

The application suite consists of more than 20 core modules:

1. Patient Registration(OPD).
2. Emergency Registration.
3. IPD(ADT) - In-Patient Department Admission.
4. OT Management
5. Pharmacy Management
6. Clinics.
7. Billing and Accounts.
8. Path Lab (LIS) - Laboratory Information System.
9. Radiology / Imaging (RIS) - Radiology Information System.
10. PACS - Picture Archiving and Communication System - Interface
11. Blood Bank Management
12. Electronic Medical Records (EMR)
13. Birth & Death Registration
14. Care Provision
15. Stores & Inventory
16. Dietary Services
17. Laundry Services
18. Personnel Management
19. Telemedicine Suite
20. Student Management System (For Teaching Hospital)
21. Discharge.
22. Hospital Information System (HIS).

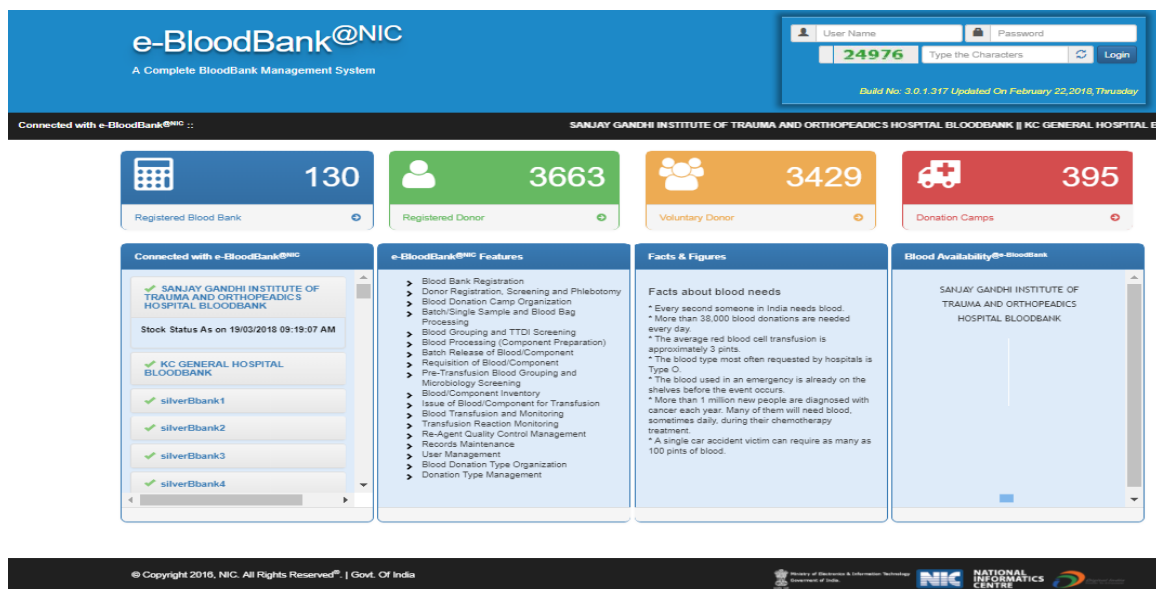

In addition to this, the following online solutions are also available:

1. **Online Registration System (ORS):** Supports online payment.
