

## National Portal [[india.gov.in](http://india.gov.in)]

National Portal of India provides a one stop source of Government information & services both in English and Hindi and it acts as a single window Gateway to over 7000 Indian Government websites. This G2A (Government to All) portal caters to all services i.e. G2G, G2C, G2B, G2E and is operational since 10th November 2005. Citizens can access information on diverse aspects and topics, as well as online citizen services across sectors and government departments. Thus the Portal has led to a faster and efficient access to government information and services in a unified manner.

1. Introduction: The National Portal is a Mission Mode Project under the National e-Governance Plan, designed and maintained by NIC. NIC Arunachal Pradesh provides technical support to the State Nodal Officer (Department of IT, GoAP) in identification and management of the content in the context of Arunachal Pradesh.
2. Services : Citizens can see Documents, Forms, Acts, Rules, Announcements, Website, Directory related to Arunachal Pradesh, uploaded through the CMS.
3. Modules : Documents, Forms, Acts, Rules, Announcements, Website, Directory
4. Implementation status : A CSP has been selected for content contribution. All forms are being converted to fillable forms.
5. Difficulties/ Challenges : Forms standardization, Awareness among department
